Instructions

Purchase Orders: Please provide a purchase order so we may begin work. It may be included with the gages or sent by e-mail, fax, mail, or phone. Required information:

- PO Number
- Company name and address
- Contact name and phone number
- Calibration frequency (If no frequency is provided Conbraco Calibration Services defaults to a 12 month frequency)
- Special requirements
- Declared value for insurance
- Shipping instructions
- If a “Rush” order the PO and the boxes must be marked “Rush” (for rush orders add 20 percent to cost)
- Complete description of items

Notes:

- For gages requiring excessive cleaning an additional \$20 charge per gage may apply
- Calibration of adjustable and tapered thread rings requires master set plug gages. Conbraco has a large inventory, but some sizes may require a special master. In these cases we will contact you.
- If a gage cannot be calibrated there may be an evaluation/handling fee (up to half the value of the calibration fee, but not to exceed \$35)

Delivery

- Normal delivery is 3 to 5 working days
- Rush delivery is one working day (plus required time to acclimatize to lab temperature).
- For rush orders add 20% to price

Insurance on Return Shipments

- If you require insurance on return shipments, please note the insurance value on your purchase order
- Conbraco Calibration Services is not responsible for shipping damage to or from the laboratory

Calibrations are traceable to SI units through the National Institute of Standards and Technology (NIST).

Calibrations include a *free* long form calibration certificate.
